Fome Political Points.

MANGAS SPEERGS, N. M., Oct., 1892.

The Enterprise is alarmed for fear some of our candidates will be elected The Enterprise is particularly severe on our candidates for commissioners. I bave known Stant. Brannin for twenty Wm. Swancoat was in from Hanover years and he is a firm and strictly hones business man. No one can truthfully say a word against him. If the Enterprise wants a commissioner who will earry free R. R. passes in his pocket and put big stockmen's property at one fourth its value, and cinch the little fellows, be doesn't want Stant Brannin If elected Brannin will try to lower every one's taxes and will be just to all. He is all honor and honesty. I pity the man who would try to bribe him to do anything but what is right.

Baylor Shannon is a boy of firmue and is not for sale if elected. He has ability to fill the office and would do it fearlessly. The other candidate I do not know. If all that Geo. O. Smith says about Upton is true, Mr. Upton is a fraud. No man can be what Smith calls Upton and be anything but a republican The Enterprise ought to have no kick egainst Mr. Young. I don't think it is the custom for directors of banks to overhaul the books at each quarterly state ment. I don't think the Enterprise asked Mr. Young to watch Mr. Dane. His being a republican ought to be enough to warrant him to be honest. I want the Enterprise to insist on Lockhart's books being rigidly examined as Whitehill's were. If all is correct Mr. Lockhart has proven himself a model sheriff. If
